

Dividend Record and Schedule for BEA Union Investment Global Flexi Allocation Fund as at 16 November 2017

Important note:

1. BEA Union Investment Global Flexi Allocation Fund (the "Fund") seeks to achieve medium to long term capital growth and income through investing in a diversified portfolio consisting of global equity securities and/or debt securities in global markets.
2. The Fund invests in emerging markets and may be subject to higher liquidity and volatility risks.
3. The Fund invests directly in equities, REITs, ETFs and managed funds, and is thus subject to the risks generally associated with such asset classes, including but not limited to liquidity of the asset class, changes in investment sentiment, political environment, economic, business and social conditions in the global markets.
4. The Fund may invest in below investment grade or non-rated debt securities including high yield bonds, which are subject to greater credit and liquidity risks than higher-rated securities.
5. The manager may at its discretion make distributions from income and/or capital in respect of the distributing classes of the Fund. Investors should note that the distributions paid out of capital amount to a return or withdrawal of part of the unitholder's original investment or from any capital gains attributable to that original investment. Such distribution may result in an immediate reduction of the net asset value per unit.
6. The Fund may enter into futures contracts for hedging and investment purposes. Given the leverage effect embedded in futures contracts, the Fund may be exposed to significant losses.
7. Investors should not make an investment decision based solely on this material.
