

**Important note:**

1. BEA Union Investment China Gateway Fund (the “Fund”) seeks medium to long term capital growth and income through investing primarily in equity securities and/or debt securities, that are either (a) traded in China or (b) issued by entities incorporated in China or entities which have significant operations in or assets in, or derive significant portion of revenue or profits from China.
2. The Fund’s investments are concentrated in China’s equity securities and debt securities. This may result in greater volatility than a fund having a more diverse portfolio of investments. The Fund may also be subject to withholding and other taxes imposed in China.
3. The Fund may invest in below investment grade, or rated BB+ or below by a China credit rating agency, or non-rated debt securities, which are subject to greater interest rate, credit and liquidity risks, higher volatility and greater risk of loss of principal and interest than higher-rated debt securities.
4. The Fund may invest in China A-Shares via Stock Connects, China interbank bond market via Foreign Direct Access Regime and/or Bond Connect. Such programmes are subject to regulatory risks and various risks such as quota limitation, volatility risk, liquidity risk, settlement and counterparty risk etc.
5. The manager may at its discretion make distributions from income and/or capital in respect of the distributing classes of the Fund. Distributions paid out of capital amount to a return or withdrawal of part of the unitholder’s original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the net asset value per unit.
6. In terms of currency hedged class units, adverse exchange rate fluctuations between the base currency of the Fund and the class currency of the currency hedged class units may result in a decrease in return and/or loss of capital for unitholders. Over-hedged or under-hedged positions may arise and there can be no assurance that these currency hedged class units will be hedged at all times or that the manager will be successful in employing the hedge.
7. RMB is currently not freely convertible and is subject to exchange controls and restrictions. Any depreciation of RMB could adversely affect the value of investor’s investment in the Fund.
8. The Fund may use derivative instruments for hedging purposes which may not achieve the intended purpose, and may result in significant losses.
9. Investors should not make an investment decision based solely on this material.

## BEA Union Investment China Gateway Fund (“CGF”)

### Infrastructure-related Stocks Outperform due to Mainland Stimulus Package

*Highlights:*

1. Chinese equities trade in narrow range amid mixed market news
2. Materials and industrial sectors outperformed due to stimulus package from China’s State Council
3. The Fund increases its exposure in selective high yield bonds as market sentiment improves

#### Fund Features

- A one-stop solution for investing in Chinese stocks and bonds. Access to onshore and offshore investment channels, providing a way to fully capture investment opportunities in Chinese stocks and bonds.
- Flexible allocation in stocks and bonds to balance risk and return.

#### Market Review and Outlook

##### Equities

- Chinese equities traded in a narrow range in July due to mixed news in the market. U.S.-China trade tensions escalated after the U.S. government announced another US\$200 billion tariff plan. On the other hand, the stimulus package from China’s State Council’s provided market support, causing infrastructure-related sectors such as, materials and industrials to outperform.
- Sector rotation continued in July, with utilities and telecommunications outperforming due to their defensive nature, while healthcare and consumer staples underperformed. China’s real estate continued to remain underperform as a result of the government’s on-going deleveraging policy.

### Bonds

- Chinese high yield bond markets experienced a degree of recovery in July, due to improving investor sentiment, and supportive policy measures.
- Sentiment regarding Chinese high yield industrial bonds was supported by window guidance from the People's Bank of China (PBOC) and its partial relaxation of rules on wealth management products and asset management.

### Investment Strategy

### Equities

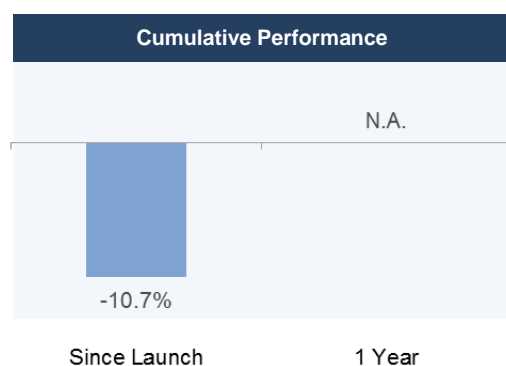

- The Fund added Chinese industrial stocks as we believe negative factors have been fully factored in.
- The Fund increased its exposure in utility stocks in order to reduce market beta during any market correction.
- We remain positive about the outlook for consumer-related sectors, as China is seeing an upgrade in consumption patterns as a result of greater access to personal credit.

### Bonds

- In view of market sentiment having improved in July, the Fund switched some of its investment grade bond exposure into selective high yield bonds with solid financial profiles.
- Despite adding exposures in high yield bonds, the Fund's bond selection remains skewed toward more defensive short-dated bonds and issuers with better credit quality.

### Fund Performance and Dividend

#### Performance<sup>1</sup> : A USD (Distributing)

#### Dividend

July 2018	Dividend per Unit	Annualised Dividend Yield <sup>1</sup>

Source of the fund data: BEA Union Investment Management Limited, as at 31 July 2018.

- Annualised dividend yield = (dividend of July x 12) / last month end NAV x 100%. The manager may at its discretion make distributions from income and/or capital in respect of the distributing classes of the Fund. Such distribution may result in an immediate reduction of the net asset value per unit. Dividend only applies to distributing classes and is not guaranteed. Past dividend record is not indicative of future dividend likely to be achieved. Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained above. You should read the relevant offering document (including the key facts statement) of the Fund for further details including the risk factors.

Investments in the Fund are subject to investment risks, including the possible loss of the principal amount invested. For full details and risk factors of the Fund, please refer to the explanatory memorandum of the Fund. Investors should also read the explanatory memorandum of the Fund for detailed information prior to any subscription. The information contained herein is only a brief introduction to the Fund. Investors should be aware that the price of units may go down as well as up as the investments of the Fund are subject to market fluctuations and to the risks inherent in all investments. Past performance is not indicative of future performance. The information contained in this document is based upon information which BEA Union Investment Management Limited considers reliable and is provided on an "as is" basis. This document does not constitute an offer, recommendation or solicitation to buy or sell any securities or financial instruments. The Fund has been authorised by the Securities and Futures Commission ("SFC") in Hong Kong. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance.
