

Dividend Record and Schedule for BEA Union Investment Asian Bond Target Maturity Fund 2022 as at 15 May 2019

Important note:

1. BEA Union Investment Asian Bond Target Maturity Fund 2022 (the "Fund") on a best effort basis, seeks regular income from the close of the launch period up to the Fund's target maturity date ("Maturity Date") (being 31 January 2022) and returns the capital of the Fund by investing primarily in Asian fixed income-related securities.
2. The duration of the Fund is limited (i.e. up to the Maturity Date). There are risks that the Fund may not make any distribution and investors may not recoup the original amount invested in the Fund during the investment period as well as at the Maturity Date.
3. The Fund invests in emerging markets and may be subject to higher liquidity and volatility risks.
4. The Fund may invest in below investment grade or non-rated debt securities, which are subject to greater credit and liquidity risks than higher-rated debt securities.
5. The manager may at its discretion make distributions from income and/or capital in respect of the distributing classes of the Fund. Investors should note that the distributions paid out of capital amount to a return or withdrawal of part of the unitholder's original investment or from any capital gains attributable to that original investment. Such distribution may result in an immediate reduction of the net asset value per unit.
6. In terms of currency hedged class units, adverse exchange rate fluctuations between the base currency of the Fund and the class currency of the currency hedged class units may result in a decrease in return and/or loss of capital for unitholders. Over-hedged or under-hedged positions may arise and there can be no assurance that these currency hedged class units will be hedged at all times or that the manager will be successful in employing the hedge.
7. RMB is currently not freely convertible and is subject to foreign exchange control policies of the Chinese government. Non-RMB based (e.g. Hong Kong) investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors' base currencies (for example HKD) will not depreciate. Any depreciation of RMB would adversely affect the value of investor's investment in the Fund.
8. The Fund may use derivative instruments for hedging purposes which may not achieve the intended purpose and may result in significant losses.
9. Investors should not make an investment decision based solely on this material.

Dividend only applies to distributing classes and is not guaranteed. Past dividend record is not indicative of future dividend likely to be achieved.

1. Launch date: 18 Jan 2019.
2. Last quarter end NAV = NAV per unit on the last day of the corresponding previous three-month period.
3. Annualised dividend yield = annualized rate of above average of daily USD 3-month LIBOR (for each three-month period ending on the last day of January, April, July and October) / distribution frequency over a year (i.e. 4 for quarterly distributions) x net asset value per unit on the last day of the corresponding previous three-month period.
4. "Net distributable income" means the net investment income (i.e. dividend income and interest income net of fees and expenses) attributable to the relevant share class and may also include net realised gains (if any) based on unaudited management accounts. However, "net distributable income" does not include net unrealised gains.
5. The dates shown in the schedule are for reference only and may subject to the manager's discretion.
6. If such day is not a business day, the record date will be the immediately preceding business day.

Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained in the table above. You should read the relevant offering document (including the key facts statement) of the fund for further details including the risk factors.
