

Dividend Record and Schedule for BEA Union Investment China High Yield Income Fund as at 15 May 2019

Important note:

1. BEA Union Investment China High Yield Income Fund (the "Fund") seeks to achieve medium to long term capital growth and regular income by primarily investing in high yield debt securities that are issued or guaranteed by entities which are incorporated in China or have significant operations in or assets in, or derive significant portion of revenue or profits from China.
2. The Fund may invest significantly in below investment grade or non-rated debt securities, including high yield bonds, which are generally subject to lower liquidity, higher volatility and greater risk of loss of principal and interest than higher rated securities.
3. The Fund's investments are concentrated in China. The value of the Fund may be more volatile than that of a fund having a more diverse portfolio of investments.
4. The manager may at its discretion make distributions from income and/or capital in respect of the distributing classes of the Fund. Investors should note that the distributions paid out of capital amount to a return or withdrawal of part of the unitholder's original investment or from any capital gains attributable to that original investment. Such distribution may result in an immediate reduction of the net asset value per unit.
5. In terms of currency hedged class units, adverse exchange rate fluctuations between the base currency of the Fund and the class currency of the currency hedged class units may result in a decrease in return and/or loss of capital for unitholders. Over-hedged or under-hedged positions may arise and there can be no assurance that these currency hedged class units will be hedged at all times or that the manager will be successful in employing the hedge.
6. RMB is currently not freely convertible and is subject to foreign exchange control policies of the Chinese government. Non-RMB based (e.g. Hong Kong) investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors' base currencies (for example HKD) will not depreciate. Any depreciation of RMB would adversely affect the value of investor's investment in the Fund.
7. The Fund may use certain financial derivative instruments for hedging and investment purposes which may not achieve the intended purpose and may result in significant losses.
8. Investors should not make an investment decision based solely on this material.

Dividend only applies to distributing classes and is not guaranteed. Past dividend record is not indicative of future dividend likely to be achieved.

1. Annualised dividend yield = (dividend of the current month x 12) / last month end NAV x 100%.
2. "Net distributable income" means the net investment income (i.e. dividend income and interest income net of fees and expenses) attributable to the relevant share class and may also include net realised gains (if any) based on unaudited management accounts. However, "net distributable income" does not include net unrealised gains.
3. The dates shown in the schedule are for reference only and may subject to the manager's discretion.
4. If such day is not a business day, the record date will be the immediately preceding business day.

Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained in the table above. You should read the relevant offering document (including the key facts statement) of the fund for further details including the risk factors.
